

High Tech Optics Technician

Bolder Vision Optik (BVO), a high tech optical component manufacturer, is looking for hard working employees to manufacture optical components for our product lines. BVO manufactures components for a variety of applications and customers ranging from the defense industry to large commercial companies. Our products require precision, detail and optical performance. We encourage you to visit our website, www.boldervision.com.

Job Summary

BVO is looking for motivated hard workers to participate in our optical manufacturing production line. The ideal candidate works well in a fast-paced environment, takes pride in detailed-oriented work, handles production time pressures and enjoys "hands-on" work. The candidate will focus on manufacturing orders, cleaning glass substrates and working with our engineering team. Advancement in skills and exposure to global customers are guaranteed to the employee who shows hustle, ambition, aptitude and competency.

Job Responsibilities:

Laboratory and Technical

- Cleaning, handling and assembly of glass raw materials
- Cleaning, manufacturing and visual inspection of optical components to specifications
- Proper handling and packaging of critical, fragile optical components
- Quality control and testing of optical components

Job Requirements

- Hustle!
- Must be authorized to work in USA
- Must speak English
- Verbal and written communication skills in English
- Willingness and ability to quickly learn new processes/procedures
- Must have a steady hand with dexterity and eye-hand coordination to inspect, clean and assemble small high precision optics
- Shift from one task to another to address changing production priorities
- Ability to work independently or with a team in an efficient manner, must be a detail-oriented person and have pride in workmanship

Location requirements

- Location type – Onsite at BVO headquarters
- Onsite location - Boulder, Colorado, United States of America

Time requirements

- Schedule - Full time
- Employment duration – Permanent after 3 month probation period

Compensation and benefits

- Expected pay - \$18 - \$23 per hour depending on experience and productivity
- Benefits – Medical, 2 weeks of vacation, IRA retirement after one year working
